Subject: RE: Diamond Alkali Superfund Site -- Operable Unit 2 Remedial Design

Hi Mike,

I expect to be able to get you the Press Release about a half hour before we actually send it out to the media. This will likely be Wednesday morning sometime between 9 and 10 AM Eastern time. (Let me know if there is anyone else in your organization to whom you would like me to email it simultaneously with yourself.)

Also, under the terms of the Consent Order, the “effective date” is the date I sign it, which I expect to do today. I will let you know when I’ve done that, even though we won’t be announcing it until after the Rosh Hashanah holiday.

Walter

Walter,

We discussed getting a copy of the press release in advance and understand completely that is not possible. However, if I could get a copy at the same time as it is released to the media it would help me address any questions with our Board before our PR department picked it up on the wires and circulated.

I plan to stand down this weekend without thoughts of work and I trust you can do the same!

Mike Anderson

Mike,

Thanks very much for moving this along so quickly – not just during the past day or two, but over the past several months.

Walter

Subject: Diamond Alkali Superfund Site -- Operable Unit 2 Remedial Design

Sirs:

Attached please find the Administrative Settlement Agreement and Order on Consent we negotiated for Occidental Chemical Company's performance of the Remedial Design for Operable Unit 2 at the Diamond Alkali Superfund Site. A cover letter transmitting the Settlement Agreement is also attached. A second email forwarding the Statement of Work and a draft letters of credit will follow.

We look forward to receiving the signed Settlement Agreement as early tomorrow as possible.

Sincerely,

Juan M. Fajardo

Assistant Regional Counsel
